

Mid Cap Core Quantitative Equity

Quarterly Fact Sheet

As of June 30, 2024

Objective

The objective of Cavanal Hill's Mid Cap Core Quantitative Equity Strategy is to generate a total return, net of all fees, in excess of the Russell MidCap[®] benchmark over rolling three-to five-year periods.

Process

Cavanal Hill's investment process is centered on evaluating fundamental factors which, in the past, have shown the ability to identify stocks which subsequently outperform. This process includes appraising each factor's influence, the correlations between factors, and the implied risk-reward tradeoff. This information is combined to create a relative ranking of stocks with the expectation that higher ranked stocks will outperform lower ranked stocks.

Portfolio Construction

Portfolios are constructed via an optimization routine. The routine's goal is to maximize the portfolio's weighting towards those stocks that possess what we consider desirable characteristics while reducing the weight of stocks that have what we believe are less desirable characteristics.

A few key portfolio construction constraints are used to manage risk. First, there is basic portfolio diversification. Second, no stock in the portfolio will have an active weight of greater than 5%. In addition, only those stocks held within the identified benchmark are considered for inclusion in the portfolio. Last, sector allocations relative to the identified benchmark are carefully managed.

Portfolio Characteristics

Strategy Inception Date	October 01, 2006
AUM (in millions)	\$163.5
Average Number of Holdings	125
Investment Style	Core
Benchmark	Russell Midcap [®] Index ¹

Portfolio Management

Thomas Wesley Verdel, CFA[®]

The Adviser

Cavalan Hill Investment Management, Inc. ("Cavalan Hill") is an SEC registered investment adviser and a wholly-owned subsidiary of BOKF, NA, a wholly-owned subsidiary of BOK Financial Corporation, a financial holding company ("BOKF"). SEC registration does not imply a certain level of skill or training. Cavalan Hill claims compliance with the Global Investment Performance Standards (GIPS[®]).

Cavalan Hill Mid Cap Core Quantitative Equity Composite (creation 10/01/2006, inception 10/01/2006)

Consists of quantitatively managed portfolios of mid-cap U.S. equities, that utilize value, momentum, and quality stock selection factors. The investment universe is limited to stocks within the benchmark. The strategy utilizes the Russell Midcap[®] Index as its benchmark. Beginning January 1, 2013, all accounts with cumulative in-kind or cash transfers into the portfolio of more than 15% of beginning assets or with cumulative in-kind or cash withdrawals in excess of 15% of beginning assets will be excluded from the composite for the month of the contributions or withdrawals.

* Periods less than one year are not annualized. Net of fee returns are modeled by reducing gross monthly returns by 1/12th of the highest annual management fee in our fee schedule.

** All price ratios are calculated using the weighted harmonic average. Weighted harmonic average is used to prevent data outliers from skewing results.

¹ The Russell Midcap[®] Index includes the smallest 800 securities in the Russell 1000[®]. The index is unmanaged. Investors cannot invest directly in an index. The above index does not reflect the fees associated with a managed account.

SEC Disclosure

Gross performance results do not reflect the deduction of investment management fees other than trading costs. Gross performance data includes the reinvestment of interest, dividends, and other earnings. The value of investments may rise or fall. **Past performance does not guarantee future results.** Investments are subject to risks, including the possible loss of the principal amount invested. Client returns will be reduced by management fees and any other expenses incurred in the management of an account. Net performance results reflect the deduction of investment management fees and trading expenses, but do not reflect the effect of other fees which may be incurred, nor do they reflect compounding which may further reduce the returns shown. Cavalan Hill's investment advisory fees are described in Part 2A of its Form ADV.

This document does not constitute the recommendation of Cavalan Hill to meet the investment needs of any individual client. It does not take into account any specific investment objectives, financial situations, or particular needs of any specific person who may receive this report. This report is not to be considered investment advice or a recommendation of any particular security, nor is it intended to provide personal investment advice. Investors should seek financial advice regarding the appropriateness of investing in any securities and other investments or investment strategies discussed in this report.
