

Enhanced Yield Tax-Free Fixed Income

Quarterly Fact Sheet

As of December 31, 2025

Objective

The objective of Cavanal Hill's Enhanced Yield Tax-Free Fixed Income Strategy is to generate current income that is exempt from federal income taxes by investing primarily in a diversified portfolio of municipal securities while utilizing full flexibility along the credit risk spectrum.

Process

Cavanal Hill's investment process for this portfolio includes macroeconomic assessment, market research, security analysis, and ongoing monitoring of bonds that offer incremental yield. The process focuses on opportunistic investments in the municipal bond market; the initial focus will have unique risks in that it will be narrow in scope and have a geographic concentration in the metro Houston, Texas, area.

Portfolio Construction

Cavanal Hill believes that municipal securities offer potential for attractive yields and enhanced safety of principal. We invest in municipal securities that offer incremental yield. The portfolio will typically have a duration between three and ten years.

Portfolio Characteristics

Inception Date	September 01, 2012
AUM (in millions)	\$10.9

Cavanal Hill Enhanced Yield Tax-Free Fixed Income (creation 9/1/2012, inception 9/1/2012)

Includes all portfolios invested in at least 80% municipal securities with a duration of 3 to 10 years and an underlying credit rating equivalent to BBB or better at time of purchase. The benchmark is the Bloomberg Muni Intermediate Index. Beginning March 1, 2017, Accounts will enter this composite as of the beginning of the second full month of performance. The composite description changed on 3/31/2018 to a duration of 3 to 10 years from a maturity of 5 to 10 years. Beginning April 1, 2020, all accounts with cumulative in-kind or cash transfers into the portfolio of more than 25% of beginning assets or with cumulative in-kind or cash withdrawals in excess of 25% of beginning assets will be excluded from the composite for the month of the contributions or withdrawals and for one full month after the contributions or withdrawals.

* Periods less than one year are not annualized. Net of fee returns are modeled by reducing gross monthly returns by 1/12th of the highest annual management fee in our fee schedule.

1 The Bloomberg Muni Intermediate Index is a broad-based performance benchmark for the tax-exempt bond market. To be included in the Bloomberg Muni Intermediate Bond Index, bonds must have a minimum credit rating of at least Baa3. They must have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million. The bonds must have been issued after January 1, 1991, and have a remaining maturity between 5 and 9.99 years. Taxable municipal bonds, bonds with floating rates, and derivatives are excluded. The returns published for this index are total returns which incorporate market value-weighting, daily price fluctuations, coupons, and pay-downs. The Bloomberg Muni Intermediate Index is a subset of the Bloomberg Municipal Bond Index. The index is unmanaged. Investors cannot invest directly in an index. The above index does not reflect the fees associated with a managed account.

SEC Disclosure

Gross performance results do not reflect the deduction of investment management fees other than trading costs. Gross performance data includes the reinvestment of interest, dividends, and other earnings. The value of investments may rise or fall. **Past performance does not guarantee future results.** Investments are subject to risks, including the possible loss of the principal amount invested. Client returns will be reduced by management fees and any other expenses incurred in the management of an account. Net performance results reflect the deduction of investment management fees and trading expenses, but do not reflect the effect of other fees which may be incurred, nor do they reflect compounding which may further reduce the returns shown. Cavanal Hill's investment advisory fees are described in Part 2A of its Form ADV.
