

Intermediate Tax Free A or Better Fixed Income

Quarterly Fact Sheet

As of December 31, 2025

Objective

The objective of Cavanal Hill's Intermediate Yield Tax Free A or Better Fixed Income Strategy is to generate current income that is exempt from federal income taxes by investing at least 80% in a diversified portfolio of A-rated or higher municipal securities at the time of purchase.

Process

Cavanal Hill's investment process for this portfolio includes macroeconomic assessment, market research, security analysis, and ongoing monitoring of intermediate tax free investment-grade bonds.

Portfolio Construction

Cavanal Hill believes that municipal securities offer the potential for attractive yields and enhanced safety of principal. We invest in investment-grade municipal securities rated A3/A- or better at time of purchase. The portfolio will have a duration between three and ten years.

Caval Hill Intermediate Tax Free A or Better Fixed Income Composite (creation 3/31/2006, inception 1/1/2000)

Includes all portfolios invested in at least 80% municipal securities with a duration of 3 to 10 years and a ratings mandate of A or better at time of purchase. The benchmark changed on March 31, 2020 for all periods from the Bloomberg Municipal Bond Index to the Bloomberg Municipal 3-10 Yr Index. The new benchmark more closely reflects the interest rate risk of the strategy and will be better aligned with the durations of the portfolios within the strategy. Beginning March 1, 2017, Accounts will enter this composite as of the beginning of the second full month of performance. The composite description changed on 3/31/2018 to a duration of 3 to 10 years from a maturity of 7 to 12 years. Beginning April 1, 2020, all accounts with cumulative in-kind or cash transfers into the portfolio of more than 25% of beginning assets or with cumulative in-kind or cash withdrawals in excess of 25% of beginning assets will be excluded from the composite for the month of the contributions or withdrawals and for one full month after the contributions or withdrawals.

* Periods less than one year are not annualized. Net of fee returns are modeled by reducing gross monthly returns by 1/12th of the highest annual management fee in our fee schedule.

¹ To be included in the Bloomberg Municipal 3-10 Yr Index, bonds must be rated investment-grade (Baa3/BBB- or higher) by at least two of the following ratings agencies: Moody's, S&P, Fitch. If only two of the three agencies rate the security, the lower rating is used to determine index eligibility. If only one of the three agencies rates a security, the rating must be investment-grade. They must have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million. The bonds must be fixed rate, have a dated-date after December 31, 1990, and must be at least one year from their maturity date. Remarketed issues, taxable municipal bonds, bonds with floating rates, and derivatives, are excluded from the benchmark.

SEC Disclosure

Gross performance results do not reflect the deduction of investment management fees other than trading costs. Gross performance data includes the reinvestment of interest, dividends, and other earnings. The value of investments may rise or fall. **Past performance does not guarantee future results.** Investments are subject to risks, including the possible loss of the principal amount invested. Client returns will be reduced by management fees and any other expenses incurred in the management of an account. Net performance results reflect the deduction of investment management fees and trading expenses, but do not reflect the effect of other fees which may be incurred, nor do they reflect compounding which may further reduce the returns shown. Caval Hill's investment advisory fees are described in Part 2A of its Form ADV.
